PRODUCT CODE	PHCS B2 (in Black with European plug)
STEAM RATE	Max 24g +/- 4g/min. Eco Setting 13g +/- 4g/min
WATER TANK CAPACITY	140ml

Cleaning information

As with most steamers, only use with purified / distilled water. Do not put back into bag until the appliance is at room temperature. Your Northmace Hotel Safety Clothes Steamer should only be cleaned with a soft cloth, slightly moistened with water (moist but NOT wet). Do not use any cleaning products as even in diluted form they may damage the finish. Avoid the areas around the switches and the electrical connections. It is important that you remember to completely isolate your steamer from the electricity supply before attempting to clean it. Then polish dry with a dry soft cloth. After the product has cooled sufficiently, use the cloth to wipe away any deposits in the steam head. The water tank should be emptied after use to prevent the accumulation of scale. The water tank should be flushed after use to remove any sediment.

Title to the goods does not pass until all monies due to Northmace & Hendon Limited have been paid. Crockery, ingredients, batteries etc. not supplied. Please note that the buyer acknowledges and accepts that it shall have sole responsibility for the disposal, recovery and reuse of any goods or products comprising electrical and electronic products including without limitation any goods provided and any goods to which the Waste Electrical and Electronic Equipment Directive (or any legislation implementing such Directive) relates and the buyer shall be solely responsible for any costs incurred as a result of this.
